

Engineered by Cleanroom Specialized Company

BNC – ISO 400

Movable Negative Pressure Machine

I Differential Pressure Gauge

Precise measure of differential pressure of air/non-corrosive gas

I Highest Grade ULPA Filter

Every Filter goes through DOP test

I Controller for BLDC Motor

European Certified, CE

Movable NPM(Model Name : BNC – ISO 400)

1. Formation of negative pressure(lower air pressure compared to external air pressure) to avoid a leak of internal infected air.
2. Filtration and disinfection of above 99.9995% of internal infected air before discharge of the air to the outside.

I Main Components

I Specifications

Power	220V, 50/60Hz	Control System	RPM (Linear Control)
Capacity	400W	Alarm	Overcurrent, Hall Sensor
Dimension (W x L x H)	700mm x 700mm x 1,030mm (Excluding wheels)		
Weight	About 70Kg		
Air Volume	28CMM (988CFM)		
Motor Spec.	BLDC (XM)		
Comm. System	RS485. 9600bps		
Certification	CE (parts)		

I Dimension
